Meeting Today’s Energy Challenges

How do we meet the goals of energy affordability, sustainability, and security to ensure innovation, policy, and investment in our energy system going forward?

To meet these current and future energy challenges, Penn State is hosting the Energy Days Conference.

**When:** May 22–23, 2017  
**Where:** The Penn Stater Hotel and Conference Center

Energy Days brings together leaders from across the energy realm, including members of industry, government, non-profits, and academia. The purpose is to identify and discuss the regional, national, and global energy challenges facing society.

Ultimately, the conference looks to create outcomes that provide innovative solutions to energy challenges. Solutions can range from new intellectual knowledge to new collaborations among industry, government, and funders.

**Speakers**

**Eric J. Barron**  
Penn State’s President who has 35 years of leadership experience in academic administration, education, research, and public service

**Nick Jones**  
Penn State Executive Vice President and Provost responsible for the administration of all of Penn State’s research and educational programs

**Andrew Ott**  
President and chief executive officer of PJM, oversees the largest power grid in North America and the largest electricity market in the world

**Bill Ritter, Jr.**  
Former governor of Colorado and founder and director of the Center for the New Energy Economy at Colorado State University

*More speakers to be announced.*
